## INDEPENDENT AUDITORS' REPORT

Commission  
Arizona Power Authority  
Phoenix, Arizona

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the business-type activities and each major fund of the Arizona Power Authority (A Body, Corporate and Politic, of the state of Arizona) (the Authority), as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, and each major fund of the Arizona Power Authority as of September 30, 2019, and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedule of the Authority's proportionate share of the net pension liability and contributions on pages 3 - 10 and pages 27 - 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED SEPTEMBER 30, 2019**

**Introduction**

The following is a discussion and analysis of the Arizona Power Authority's (the Authority) financial performance for the operating year ended September 30, 2019. This discussion is designed to: (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Authority's financial activity, and (c) identify changes in the Authority's financial position.

The Management's Discussion and Analysis (MD&A) focuses on the 2019 operating year's activities, resulting changes and known facts, and should be read in conjunction with the Authority's basic financial statements as of and for the year ended September 30, 2019.

This MD&A is an introduction to the basic financial statements of the Authority, which are comprised of two components.

- (1) Fund Financial Statements
- (2) Notes to the Financial Statements

The Fund Financial Statements begin on page 11 and provide detailed information about the individual funds. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the Authority uses to keep track of specific sources of revenues and disbursements for specific purposes. The Authority's funds are treated as proprietary and are independent of each other. Most of the Authority's financial dealings are with contracts outside of state government. A separate fund is not maintained for government activities. The Authority does not act as a fiduciary.

**USING THIS FINANCIAL REPORT**

This financial report consists of a series of financial statements. The Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows (on pages 11, 12, and 13, respectively) provide information about the activities of the Authority as a whole and present a longer-term view of the Authority's finances. The Authority is a body, corporate and politic, of the state of Arizona and is a special-purpose government entity engaged only in business-type activities. Accordingly, the financial statements presented are the required basic financial statements in accordance with the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, as amended.

**AUTHORITY HIGHLIGHTS**

***Effects of Drought on Hoover Energy*** – The Colorado River Basin has been experiencing severe drought conditions for the past twenty years. This has resulted in a reduction in Lake Mead's storage and the power production at Hoover Dam. In response to customer requests, the Authority continues to purchase supplemental power to offset the reduced energy production at Hoover. The supplemental power costs are significantly higher than Hoover rates, and are passed directly to the requesting customers. These supplemental revenues and costs are reflected on the Authority's records, resulting in higher revenue and purchased power costs.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED SEPTEMBER 30, 2019**

**REVENUES**

***Increase/Decrease in Commission Approved Power Rates*** – State statute requires the rates be set at levels to recover the cost of supplying services. In addition, contracts between the Authority and its customers provide specific details regarding rate determination. The Arizona Power Authority Commission is solely responsible for periodically adjusting rates, as appropriate.

***Market Impacts on Investment Income*** – During operating year 2019 market conditions have continued to result in historic low investment returns.

***Economic Drought Condition*** – Although the drought condition in the Colorado River Basin continues, increased efficiency improvements at Hoover Dam have helped to offset the decreases resulting from reduced water levels.

**EXPENSES**

***Introduction of New Programs*** – There were no changes to existing programs during this fiscal year; however, a focused customer service program was created to assist in the onboarding of the new customers.

***Increase/Decrease in Authorized Personnel*** – Changes in the Authority's services may result in increasing/decreasing authorized staffing. Operating year 2019 staffing costs (salary and related benefits) represented 4.55% of the Authority's operating costs. For operating year 2018, staffing costs represented 4.47% of the Authority's operating costs.

***Salary Structure*** – The ability to attract and retain competent personnel requires the Authority to provide a competitive salary structure, which is reviewed annually, and is within state guidelines.

**FINANCIAL HIGHLIGHTS**

- The Authority's 2019 net position increased by \$62,340 due to normal operating activity.
- The Authority's 2018 net position decreased by \$333,923 primarily due to the amortization of the future benefit of reduced power rates resulting from the 2014 bond refinancing.
- The Authority's 2019 operating revenues decreased by \$785,271 or 3.44% due to less supplemental power.
- The Authority's 2018 operating revenues decreased by \$12,005,123 or 34.49% primarily due to the termination of Scheduling Entity revenue and transmission revenue.

**STATEMENTS OF NET POSITION**

There are three normal transactions that will affect the comparability of the Statements of Net Position summary presentation:

**Net Results of Activities** – which will impact (increase/decrease) current assets and unrestricted net position.

**Principal Payment on Debt** – which will reduce current assets and reduce long-term debt, and impact restricted net position.

**Reduction of Capital Assets through Depreciation** – which will reduce capital assets and net investment in capital assets.

**Condensed Statements of Net Position**  
**Business-Type Activities**

	2019	2018	Difference in Amount	Difference in Percent
Current Assets	\$ 10,685,746	\$ 10,264,713	\$ 421,033	4.10 %
Long-Term Assets	24,879,727	26,155,284	(1,275,557)	(4.88)
Capital Assets, Net	75,673	89,455	(13,782)	(15.41)
Total Assets	<u>35,641,146</u>	<u>36,509,452</u>	<u>(868,306)</u>	(2.38)
Deferred Outflows of Resources	<u>135,630</u>	<u>263,297</u>	<u>(127,667)</u>	(48.49)
Current Liabilities	3,607,344	4,090,899	(483,555)	(11.82)
Long-Term Bonds Payable, Net	26,416,460	26,932,916	(516,456)	(1.92)

Restricted for Debt Service	2,966,284	2,337,802	628,482	26.88
Unrestricted	2,648,229	3,200,589	(552,360)	(17.26)
Total Net Position	<u>\$ 5,690,186</u>	<u>\$ 5,627,846</u>	<u>\$ 62,340</u>	1.11

**Operating Year 2019 Condensed Statement of Net Position Discussion**

**Current Assets** increased slightly due to normal operating activity.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED SEPTEMBER 30, 2019**

**Long-Term Assets** decreased by \$1.3 million due to \$300,000 in transitional costs and repayable advances being billed to "new" A&B customers and hence becoming current, \$500,000 in future benefits due to the 2014 refinancing being reclassified as current, and \$400,000 in current period amortization.

**Capital Assets, Net** decreased due to annual depreciation of \$14 thousand.

**Deferred Outflows of Resources** decreased due to the change in the pension liability accrual.

**Current Liabilities** decreased primarily due to the decrease in repayable advances due to WAPA and old "A" and "B" customers.

**Long-Term Liabilities** decreased due to a pay down of the 2014 Bond Principal.

**Deferred Inflows of Resources** decreased due to the change in the pension liability accrual.

**Net Position** increased primarily due to net income for the period.

**CAPITAL ASSETS**

As of September 30, 2019, the Authority had \$75,673 invested in a variety of capital assets, as reflected in the following schedule, which represents a net decrease (additions less retirements and depreciation) of \$14,646 during operating year 2018, and a net decrease of \$13,782 during operating year 2019.

	September 30,	
	2019	2018
General Plant - Office	\$ 75,673	\$ 89,455
Capital Assets, Net	\$ 75,673	\$ 89,455

The following reconciliation summarizes the change in capital assets for the years ended September 30, 2019 and 2018, which is presented in detail in Note 5:

	September 30,	
	2019	2018
Beginning Balance	\$ 89,455	\$ 104,101
Additions	-	-
Depreciation	(13,782)	(14,646)
Ending Balance	\$ 75,673	\$ 89,455

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED SEPTEMBER 30, 2019**

**DEBT OUTSTANDING**

As of September 30, 2019, the Authority had \$26,025,000 in debt outstanding for the 2014 Series Bonds.

As of September 30, 2018, the Authority had \$26,565,000 in debt outstanding for the 2014 Series Bonds.

**LIQUIDITY**

Pursuant to Arizona Revised Statutes (A.R.S.) Section 30-124, the Commission of the Authority shall establish electric rates to include such price components as are necessary to maintain the Authority, to provide and maintain reasonable working capital and depreciation and other necessary and proper reserves. Components that are necessary to maintain the Authority include employee payroll, occupancy costs, cost of purchases or construction of generation and transmission services, and any cost factors chargeable to the cost of providing service as the Commission deems necessary or advisable to establish and maintain the financial integrity of the Authority. Contracts for sale of electric power to the Authority's customers include rates which may be modified upon 24-hour notice when such action is necessary in the sole judgment of the Commission in order to achieve the purposes of A.R.S. Section 30-124. The Commission, on a monthly basis, reviews the financial status of the Authority, including expenses and revenues and the adequacy of the rates to maintain the Authority's financial integrity. During operating years 2019 and 2018, the Commission did not change rates.

**STATEMENTS OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION**

There are normal transactions that will affect the comparability of the Statements of Revenues, Expenses, and Changes in Net Position summary presentation:

***Operating Revenues*** – which increase/decrease as a result of economic conditions and power usage.

***Operating Expenses*** – which increase/decrease as a result of purchased power costs, transmission costs, and operating costs.

***Other Income (Expenses)*** – which increase/decrease as a result of investment market conditions and amortization of the future benefit of the 2014 bond refinancing.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**YEAR ENDED SEPTEMBER 30, 2019**

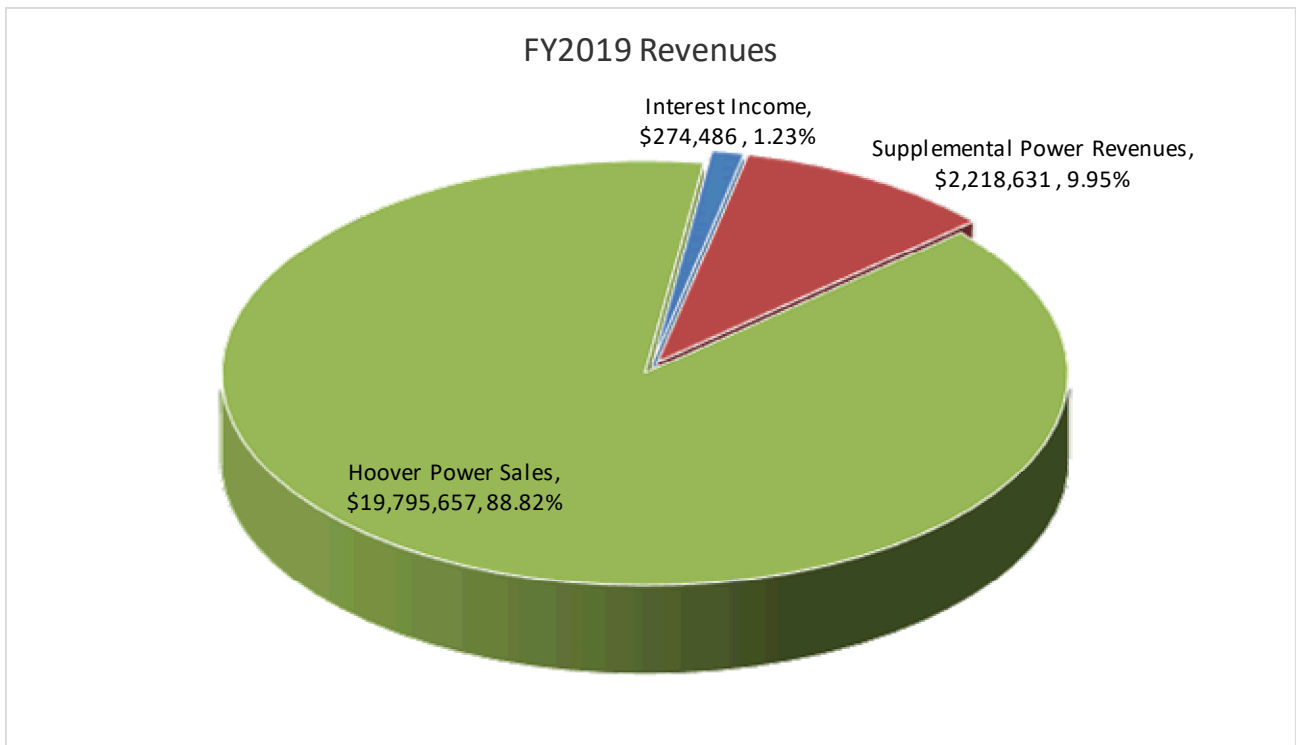

**Operating Year 2019 Changes in Net Position Discussion**

Net position increased overall because of the following:

- Total Operating revenues and expenses both decreased primarily due to a 1.5% decrease in rates (\$300,000) and a reduction in energy received and billed (\$800,000), offset by an increase of \$600,000 in supplemental power revenue.
- Administrative and general expenses were flat.
- Depreciation decreased due to attrition of capital assets.

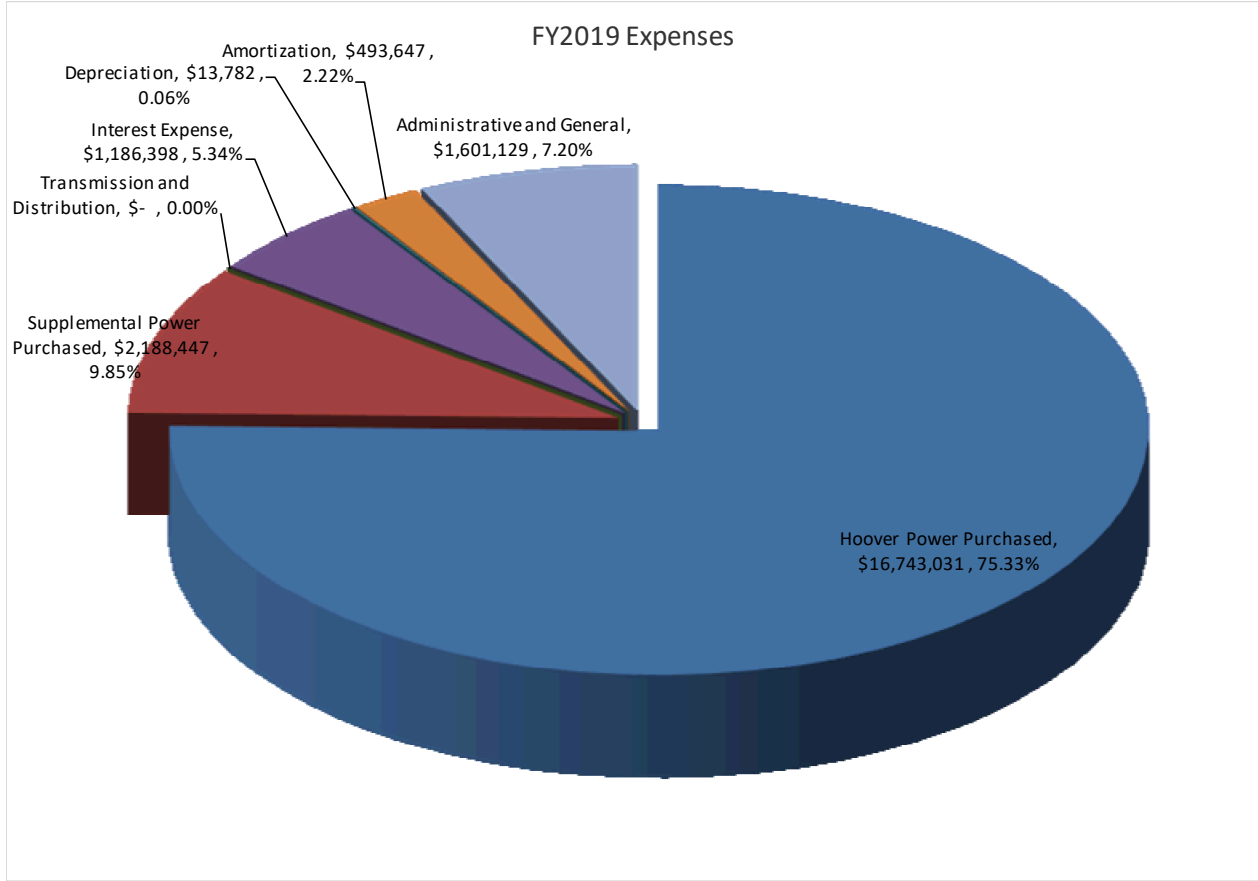

**Business-Type Activities**

The following chart depicts the sources of revenues for the fiscal year 2019:

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Description of Business**

The Arizona Power Authority (the Authority) is a body, corporate and politic, without taxing power, established by the Arizona Legislature on May 27, 1944 by the Power Authority Act. Under the Power Authority Act, the Authority is directed to obtain electric power developed from the mainstream of the Colorado River and sell such power to certain qualified purchasers. The Power Authority Act provides that the Authority must be a self-supporting agency and prohibits the Authority from incurring any obligation, which would be binding upon the state of Arizona.

The Authority supplies capacity and energy on a wholesale basis to certain power purchasers in the state of Arizona. The Authority's primary source of power and energy is the Hoover Power Plant at Hoover Dam, located approximately 25 miles from Las Vegas, Nevada. Hoover power is produced by the Boulder Canyon Project hydropower plant owned by the Bureau of Reclamation. Hoover Dam is the highest and third largest concrete dam in the United States of America. Hoover Dam was dedicated in 1935 and the first generator of the Hoover Power Plant was in full operation in October 1936. The Hoover Power Plant has been in continuous operation since that time. Power and energy from the Hoover Power Plant is transmitted to load centers in Arizona, California, and Nevada. The Authority first contracted for Arizona's share of Hoover power in 1952 and has continuously provided power and energy to its customers since that time.

The Authority is governed by a commission of five members appointed by the Governor and approved by the state Senate (the Commission). The term of office for each member is six years and the members select a chairman and vice-chairman from among its membership for two-year terms.

Pursuant to Arizona law, the Commission serves as the Authority's regulatory body with the exclusive authority to establish electric prices. The Authority is required to follow certain procedures, pertaining to public notice requirements and public meetings, before implementing changes in electric price schedules.

**Measurement Focus**

The Authority's funds are accounted for on a flow of economic resources measurement focus. All assets and liabilities, deferred outflows and inflows of resources, (whether current or noncurrent) associated with their activity are included in the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Net Position present increases (revenues) and decreases (expenses) in total net position. The Authority's reported total net position is segregated into net investment in capital assets, restricted and unrestricted components.

**Basis of Accounting**

The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to a governmental entity.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Basis of Accounting (Continued)**

Basis of accounting refers to the time at which revenues and expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus applied. The accrual basis of accounting is used by the Authority whereby revenues are recognized in the accounting period in which they are earned and become measurable, and expenses are recognized when incurred.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Revenue Recognition**

The Authority recognizes revenue when power is delivered to the customers.

**Cash and Cash Equivalents**

The Authority treats short-term temporary cash investments with original maturities, when purchased, of three months or less as cash equivalents.

**Investments**

The Authority's investments are U.S. Treasury obligations which are used to fund its debt service obligation. All such investments are stated at fair value based on quoted market prices.

**Capital Assets and Depreciation**

Capital assets are initially stated at original cost less accumulated depreciation. Depreciation is provided on the straight-line method based on the estimated useful lives of the property items, which range from 3 to 20 years. The costs of additions and replacements are capitalized. Repairs and maintenance are charged to expense as incurred.

Retirements, sales and disposals are recorded by removing the cost and accumulated depreciation from the asset, with any resulting gain or loss reflected in other income or expense within the Statement of Revenues, Expenses, and Changes in Net Position. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the fair value is less than the carrying amount of the asset, a loss is recognized for the difference.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Customer Advances**

The Authority's 1987 customer contracts expired on September 30, 2017 and were replaced by 50-year contracts which reallocated approximately 5% of the Authority's entitlement to thirty-five new customers commencing on October 1, 2017. As part of the reallocation, transition costs and repayable advances were reconciled as of the end of the prior contracts and the proportionate share of these costs were calculated for the new customers. The Authority is acting as an agent on behalf of its old customers and new customers in remitting prepaid costs to old customers. These amounts are shown on the Statement of Net Position as Customer Advances under Noncurrent Assets (for amounts prepaid by the Authority to the Western Area Power Administration on the customers' behalf) and as part of Accounts Payable and Other (for amounts collected from customers but not yet submitted to the "old" Authority customers and the Western Area Power Administration).

**Presentation of Deferred Outflows and Deferred Inflows of Resources**

Deferred outflows and inflows of resources are reported in the basic statement of net position in a separate section following assets and liabilities, respectively. The Authority elected the optional statement of net position presentation.

The Authority recognizes the consumption of net position that is applicable to a future reporting period as deferred outflows of resources. The deferred outflows of resources are related to the Authority's pension plan.

The Authority recognizes the acquisition of net position that is applicable to a future reporting period as deferred inflows of resources. The deferred inflows of resources relate to the Authority's pension plan.

**Hoover Prepayment Program**

The Power Resource Revenue Bonds, (2014 Series Bonds) (Hoover Prepayment Program) were issued to advance funds to cover the Authority's proportionate share of the obligations incurred by the United States Bureau of Reclamation for certain improvements at Hoover Dam. The original advance of \$23,843,169 will result in a reduction of future rates paid by the Authority for the power and energy from the Boulder Canyon Project. The Authority reports the future benefit of reduced power rates as an asset in the Statement of Net Position. The future benefit of reduced power rates are amortized in a systematic and rational manner over the life of the bonds which will mature October 1, 2045. The amortization expense is reported in the Statement of Revenues, Expenses, and Changes in Net Position.

**Pension Plans**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arizona State Retirement System (ASRS) and additions to/deductions from ASRS's fiduciary net position have been determined on the same basis as they are reported by ASRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Application of Net Position to Expenses Incurred**

The Authority's restricted resources are funds held by the trustee in the debt service and debt service reserve accounts. The Authority uses restricted resources solely for debt service associated with its outstanding bonds. The Authority would apply unrestricted, net position to expenses incurred which are not restricted.

**Customer Credits**

The Authority operates on a nonprofit basis and reduces charges to its customers through credits on power bills or checks to customers during the subsequent operating year for any revenues collected in excess of expenses during the current operating year. The Authority is required under State statute to set the rates at levels sufficient to pay all expenses incurred during the operating year.

Refunds of \$965,017 were paid to the customers during the year ended September 30, 2019.

**Income Taxes**

The Authority is exempt from federal and Arizona state corporate income taxes. Accordingly, no provision for income taxes has been recorded in the accompanying financial statements.

**Geographic and Product Concentration**

The Authority's revenues are derived from the sale of electrical power and services to water districts, electrical and irrigation districts, and cities, which represent contracted customers in the state of Arizona. The Hoover Operating Fund is used to purchase electric power solely from Western. The Authority's APA General Fund is used to purchase electric power from various providers.

**NOTE 2 FUND ACCOUNTING**

**Hoover Operating Fund**

The Hoover Operating Fund accounted for revenues and expenses applicable to the sale and purchase of power and energy received by the APA from the Western Power Administration ("WAPA") under its Hoover Energy contract. Agreements with purchasers committed to APA to sell and transmit this energy essentially at or near cost, specifying that any unexpended balance in the Fund at the end of the Operating Year ending September 30, 2019 will be returned to the purchasers pro rata on the basis of their energy entitlement percentages as computed under the agreements.

The powers granted the Arizona Power Authority are broad in scope, allowing the Authority the ability to construct or participate in multiple energy projects. Pursuant to Arizona Revised Statute 30-121, the Authority has contracted with Western Area Power Administration to purchase and resell Electric Service from Hoover Dam (Boulder Canyon Project) on behalf of the State of Arizona. As each project is unique, the Authority has established a separate fund for the operation, maintenance, and debt service repayment for this project. This included the "2014 Refinance - Revenue Bonds".

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 2 FUND ACCOUNTING (CONTINUED)**

**APA General Fund**

The Authority's operations other than those applicable to the Hoover Operating Fund are accounted for in the APA General Fund. The purchase of supplemental power and the sale and transmission of such power to the Authority's customers comprise the majority of this fund's activity.

**NOTE 3 CASH AND CASH EQUIVALENTS**

All cash and cash equivalent balances except for bond funds held by the Trustee are maintained by the state of Arizona Treasurer within the Local Government Investment Pool (LGIP). The LGIP is not registered with the Securities and Exchange Commission and investments are not subject to custodial credit risk. The state Board of Investment conducts monthly reviews of investment activity and performance. LGIP amounts are carried at fair value. Participant shares are purchased and sold based on the Net Asset Value (NAV) of the shares. The NAV is determined by dividing the fair value of the portfolio by the total shares outstanding. The Authority's LGIP investment balance represents its cash and cash equivalents as of September 30, 2019.

**NOTE 4 FAIR VALUE**

In determining fair value, the Authority uses various valuation approaches within the fair value measurement framework. Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability. Fair value measurements framework establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

Fair value measurements define levels within the hierarchy based on the reliability of inputs as follows:

*Level 1* – Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;

*Level 2* – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and

*Level 3* – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 4 FAIR VALUE (CONTINUED)**

The Authority's investments at September 30, 2019, categorized within the fair value hierarchy detailed above were as follows:

External Investment Pools Measured at Fair Value:	
State Treasurer's Investment Pool	\$ 7,283,108
Investments by Amortized Cost:	
Money Market Funds	<u>2,966,284</u>
Total Investments Measured at Fair Value	<u><u>\$ 10,249,392</u></u>

**NOTE 5 CAPITAL ASSETS**

Capital assets of the Authority at September 30, 2019 were as follows:

	Balance Beginning of Year	Additions	Deletions	Balance End of Year
Transmission Plant	\$ 319,565	\$ -	\$ -	\$ 319,565
Distribution Plant	227,518	-	-	227,518
General Plant - Office	772,090	-	-	772,090
Total Depreciable Assets	<u>1,319,173</u>	-	-	<u>1,319,173</u>
Less Accumulated Depreciation for:				
Transmission Plant	(319,565)	-	-	(319,565)
Distribution Plant	(227,518)	-	-	(227,518)
General Plant - Office	(682,635)	(13,782)	-	(696,417)
Total Accumulated Depreciation	<u>(1,229,718)</u>	<u>(13,782)</u>	<u>-</u>	<u>(1,243,500)</u>
Capital Assets, Net	<u><u>\$ 89,455</u></u>	<u><u>\$ (13,782)</u></u>	<u><u>\$ -</u></u>	<u><u>\$ 75,673</u></u>

The Authority's depreciation expense was \$13,782 for the year ended September 30, 2019.

The transmission and distribution plants are comprised of a substation and related equipment. Purchased power is delivered over transmission facilities owned by Western.

**ARIZONA POWER AUTHORITY**  
**(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 6 HOOVER PREPAYMENT PROGRAM**

The future benefit of reduced power rates reported as an asset at September 30, 2019 was as follows:

Future Benefit of Reduced Power Rates	\$ 23,843,169
Accumulated Amortization	<u>(1,466,252)</u>
Future Benefit of Reduced Power Rates, Net	<u>\$ 22,376,917</u>

The Authority's amortization of future benefit of reduced power rates was \$493,647 for the year ended September 30, 2019.

**NOTE 7 BONDS PAYABLE**

Bonds payable consists of the following:

	October 1, 2018	Increases	Reductions	Transfers	September 30, 2019
Bonds Payable:					
Short-Term	\$ 540,000	\$ -	\$ (540,000)	\$ 550,000	\$ 550,000
Bond payable					
Long-Term	<u>26,025,000</u>	<u>-</u>	<u>-</u>	<u>(550,000)</u>	<u>25,475,000</u>
Total Bonds Payable	<u>\$ 26,565,000</u>	<u>\$ -</u>	<u>\$ (540,000)</u>	<u>\$ -</u>	<u>\$ 26,025,000</u>

The Authority's outstanding bonds, totaling \$26,025,000, bear interest ranging from 1.799% to 4.918%, are due through Fiscal Year 2045, and are secured by the pledged property, as defined by the bond resolution, which includes the proceeds from the sale of the bonds, rights, and interest in various contracts and revenues.

Principal and interest amounts due over the next five fiscal years ending September 30 and thereafter are as follows:

<u>Year Ending September 30,</u>	<u>Principal</u>	<u>Interest</u>
2020	\$ 550,000	\$ 1,186,398
2021	560,000	1,174,303
2022	580,000	1,159,138
2023	595,000	1,141,402
2024	615,000	1,121,595
2025-2029	3,440,000	5,246,918
2030-2034	4,240,000	4,437,956
2035-2039	5,380,000	3,293,831
2040-2044	6,835,000	1,834,660
2045	<u>3,230,000</u>	<u>240,244</u>
Total	<u>\$ 26,025,000</u>	<u>\$ 20,836,445</u>

**ARIZONA POWER AUTHORITY**  
 (A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 8 RETIREMENT PLANS**

The Authority contributes to the Arizona State Retirement System plan described below. The plan is a component unit of the state of Arizona.

At September 30, 2019, the Authority reported the following amounts related to the pension plan to which it contributes:

<u>Statement of Net Position and Statement of Activities</u>	<u>Business-Type Activities</u>
Net Pension Liability	\$ 941,460
Deferred Outflows of Resources	135,630
Deferred Inflows of Resources	62,786
Pension Expense	179,966

**Plan Descriptions** – Authority employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health insurance premium benefit (OPEB); and a cost-sharing, multiple-employer defined benefit long-term disability (OPEB). The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2, and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its web site at [www.azasrs.gov](http://www.azasrs.gov).

The OPEB plan is not included in the Authority’s financial statements as the liability and related deferred inflows of resources, deferred outflows of resources, and OPEB expense are not material.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 8 RETIREMENT PLANS (CONTINUED)**

**Benefits Provided** – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	<u>Before 7/1/2011</u>	<u>On or After 7/1/2011</u>
Years of Service and Age Required to Receive Benefits	Sum of Years and Age Equals 80 10 Years, Age 62 5 Years, Age 50* Any Years, Age 65	30 Years, Age 55 25 Years, Age 60 10 Years, Age 62 5 Years, Age 50* Any Years, Age 65
Final Average Salary is Based on:	Highest 36 Consecutive Months of Last 120 Months	Highest 60 Consecutive Months of Last 120 Months
Benefit Percentage per Years of Service	2.1% to 2.3%	2.1% to 2.3%

\* With actuarially reduced benefits

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

**Contributions** – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended September 30, 2019, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.64% from October 1, 2018 through June 30, 2019 and 11.94% from July 1, 2019 through September 30, 2019 of the members' annual covered payroll, and the Authority was required by statute to contribute at the actuarially determined rate of 11.18% from October 1, 2018 through June 30, 2019 and 11.45% from July 1, 2019 through September 30, 2019 of the active members' annual covered payroll.

In addition, the Authority was required by statute to contribute at the actuarially determined rate of 10.41% from October 1, 2018 through June 30, 2019 and 10.29% from July 1, 2019 through September 30, 2019 of annual covered payroll of retired members who worked for the Authority in positions that would typically be filled by an employee who contributes to the ASRS. The Authority's contributions to the pension plan for the year ended September 30, 2019, were \$77,058.

During the operating year ended September 30, 2019, the Authority paid all ASRS pension contributions out of the Hoover Operating Fund.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 8 RETIREMENT PLANS (CONTINUED)**

**Pension Liability** – At September 30, 2019, the Authority reported a liability of \$941,460 for its proportionate share of the ASRS’ net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2018, to the measurement date of June 30, 2019.

The Authority’s proportion of the net pension liability was based on the Authority’s actual contributions to the plan relative to the total of all participating employers’ contributions for the year ended June 30, 2019. The Authority’s proportion measured as of June 30, 2019, was 0.00647%, which was a decrease of 0.00004% from its proportion measured as of June 30, 2018.

**Pension Expense and Deferred Outflows/Inflows of Resources** – For the year ended September 30, 2019, the Authority recognized pension expense for ASRS of \$179,966. At September 30, 2019, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 17,008	\$ 177
Changes of Assumptions or Other Inputs	3,980	37,491
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	-	21,161
Changes in Proportion and Differences Between Authority Contributions and Proportionate Share of Contributions	95,102	3,957
Contributions Subsequent to the Measurement Date	19,540	-
Total	<u>\$ 135,630</u>	<u>\$ 62,786</u>

The \$19,540 reported as deferred outflows of resources related to ASRS pensions resulting from the Authority contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>
2020	\$ 78,655
2021	(26,954)
2022	(4,064)
2023	5,667

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 8 RETIREMENT PLANS (CONTINUED)**

**Actuarial Assumptions** – The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial Valuation Date	June 30, 2018
Actuarial Roll Forward Date	June 30, 2019
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	7.5%
Projected Salary Increases	2.7 - 7.2%
Inflation	2.3%
Permanent Benefit Increase	Included
Mortality Rates	2017 SRA Scale U-MP

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial study for the five-year period ended June 30, 2016.

The long-term expected rate of return on ASRS pension plan investments was determined to be 7.5% using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Expected Geometric Real Rate of Return</u>
Equity	50 %	6.09 %
Credit	20	5.36
Interest Rate Sensitive Bonds	10	1.62
Real Estate	20	5.85
Total Asset Allocation	100 %	

**Discount Rate** – The discount rate used to measure the ASRS total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statutes. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 8 RETIREMENT PLANS (CONTINUED)**

**Sensitivity of the Authority’s Proportionate Share of the ASRS Net Pension Liability to Changes in the Discount Rate** – The following table presents the Authority’s proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the Authority’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5%) or one percentage point higher (8.5%) than the current rate.

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Authority’s Proportionate Share of the Net Pension Liability	<u>\$ 1,339,916</u>	<u>\$ 941,460</u>	<u>\$ 608,454</u>

**Pension Plan Fiduciary Net Position** – Detailed information about the pension plan’s fiduciary net position is available in the separately issued ASRS financial report.

**NOTE 9 COMMITMENTS AND CONTINGENCIES**

The Lower Colorado Multi-Species Conservation Program (MSCP) is a cooperative effort between Federal and nonfederal entities that will create more than 8,100 acres of riparian, marsh and backwater habitat for 31 species of fish, birds, mammals, and plants. The program became effective on April 4, 2005 and expires April 30, 2055. As a party to this Agreement, the Arizona Power Authority’s financial obligation is approximately \$119,000 per year (in 2003 dollars, adjusted annually for inflation). For the year ended September 30, 2019, the Authority paid \$167,865, for the MSCP.

The Authority is involved in various claims arising in the ordinary course of business, none of which, in the opinion of management, if determined adversely against the Authority, will have a material adverse effect on the financial condition or results of operations of the Authority.

**NOTE 10 INVESTMENTS HELD BY TRUSTEE**

Certain funds of the Authority are secured under the Authority’s bond resolution and held by the Authority’s Trustee. The Authority has no formal policy concerning exposure to custodial credit risk, interest rate risk or credit risk. The Authority’s investments held by the trustee consist of money market funds as of September 30, 2019. The fair value of the investment securities at September 30, 2019 is as follows:

Money Market Funds	<u>\$ 2,966,284</u>
--------------------	---------------------

**ARIZONA POWER AUTHORITY**  
(A BODY, CORPORATE AND POLITIC, OF THE STATE OF ARIZONA)  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2019**

**NOTE 11 PURCHASED POWER AND SALES COMMITMENTS**

As of October 1, 2017, the Authority has reallocated and entered into new take-or-pay contracts with 63 customers, across the state of Arizona, for a 50-year contract period. Under these contracts, customers are obligated to pay for their proportionate share of Hoover power and operation of the Authority.

The Authority is party to a new contract for electric service with Western which began October 1, 2017. This requires the Authority to pay approximately 19.75% of Western's revenue requirements each operating year until the contract expires. During the year ended June 30, 2019, the Authority paid \$16,743,031 for purchased power under this contract. The Authority is obligated to pay these costs under the contract even in the unlikely event that no power is supplied.

The Authority has power contracts with Salt River Project (SRP), Southwest Public Power Agency, Inc. (SPPA), and Western Area Power Administration (WAPA) in which supplemental power purchases can be made by the Authority on behalf of its customers. There are no minimum quantities that the Authority is required to purchase. This agreement is applicable when supplemental power is necessary, during such times of low production of Hoover energy, and during summer months when customers require higher levels of energy. During the year ended September 30, 2019, the Authority paid \$2,188,447, for purchased power under these contracts.

**NOTE 12 SUBSEQUENT EVENTS**

Management evaluated subsequent events through February 18, 2020, the date the financial statements were available to be issued.

**NOTE 1 ACTUARIALY DETERMINED CONTRIBUTION RATE**

Actuarial determined contribution rates for ASRS are calculated as of June 30, one year prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

ASRS	
Actuarial Valuation Date	June 30, 2018
Actuarial Roll Forward Date	June 30, 2019
Actuarial Cost Method	Entry Age Normal
Asset Valuation	Fair Value
Discount Rate	7.50%
Projected Salary Increases	2.7 - 7.2%
Inflation	2.3%
Permanent Benefit Increase	Included
Mortality Rates	2017 SRA Scale U-MP
